WEDDING GUIDE

Pixography **Weddings**

Whether your dream wedding is an intimate affair of 25 or a huge party with 400 of your closest friends, no detail is more important than the photographer you choose.

Experience matters when it comes to capturing the essence of the most important day of your life. These days, everyone with an iPhone claims to be a photographer. We're not a "shoot and burn" studio. Sure we can provide your images so that you can print your own, but we provide so much more. Professionally retouched images, printed albums, wall portraits, gift prints and more. And most important, the assurance that your day is safe in the hand of seasoned professionals.
